Re: 089-18379-00059
Administrative Amendment to
Part 70 Permit 089-7802-00059

Dear Mr. Lounsbury:

Lakehead Pipeline Company L.P. was issued a Part 70 operation permit on September 24, 1998 for a crude oil pipeline terminal located at 1500 West Main Street, Griffith IN 46319-2662. A letter notifying the Office of Air Quality (OAQ) of a change was received on November 17, 2003. The notification related to the installation of a new floor above the existing floor of storage tank EU72.

The installation of the new storage tank floor is hereby acknowledged. No revision of the permit was necessary to accommodate the change. The New Source Performance Standards Subpart Kb "Standards of Performance for Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984" remain not applicable to the storage tank. The change is not classifiable as a modification under 40 CFR § 60.14 because there is no increase in the emission rate to the atmosphere of any pollutant to which a standard applies. The change is not classifiable as a reconstruction under 40 CFR § 60.15 because the fixed capital cost of the new components does not exceed 50 percent of the fixed capital cost that would be required to construct a comparable entirely new facility.

Pursuant to the provisions of 326 IAC 2-7-11(a)(7), all instances of "Office of Air Management" in the permit conditions have been amended to read "Office of Air Quality" and all instances of "OAM" have been changed to read "OAQ."

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Allen R. Davidson at (800) 451-6027, press 0 and ask for extension 3-5693, or dial (317) 233-5693.

Sincerely,
